Allen-Bennett

A quiet but pretty wedding was solemnized at St. John's Anglican church on Saturday morning at ten o'clock, when Dorothy May Bennett, youngest daughter of Mrs. F. Bennett of this city, was given in marriage by her brother, Mr. S. A. Bennett, to Ernest G. Allen of Bassano, Alta. The bride looked charming as she entered the church on the arm of her brother, attired in a tailor suit of cream gabardine, with a dainty hat trimmed with ostrich plume, and carried a bouquet of blush roses and lilies of the valley. The bride's only sister, Miss Elsie Bennett, attended her, and wore a pretty dress of champagne georgette crepe, trimmed with roses, with becoming hat to match, and carried a bunch of glorio roses. Mr. C. B. Hughes acted as best man. After the ceremony the guests were received by the bride at the Empress Hotel, where a dainty wedding breakfast was served. The happy couple afterwards left on the noon train for the coast, where the honeymoon will be spent, the bride wearing a travelling suit of navy serge. On their return Mr. and Mrs. Allen will make their home at Bassano, Alta.—Moose Jaw News.

A Successful Sale

The sale of work and home cooking held by the women of the Anglican Church Guild on Wednesday, June 19, was in every respect a great success, the splendid sum of \$140.15 being realized, and no expense was incurred, this amount was all clear profit.

The cake weight guessing contest held during the sale was finally won by Mrs. R. A. Travis and Mrs. Keck.

The Women's Guild wish to heartily thank all who helped them to achieve this gratifying result, either by donations of work and home cooking or by their patronage during the afternoon.

Nearly twice as many were present at the Guild to Mr. G. M. Pierce for the free use of his old store and to Messrs. Hobbins and P. Malloy for supplying the free cartage.

Majorville

We are pleased to welcome home Mr. Trauman Jordan from overseas. He was with a Mounted Police corps.

Mr. Stephen Godkin, from Ontario, is visiting the broker here, Mr. Alex. Godkin, on a return trip from the coast.

Mr. Geo. Prentice, with his McLaughlin Six, made a trip to Calgary last week. Considerable speculation about this trip is being indulged in, but we are not supposed to divulge anything about it as yet.

The continued dry weather and hot winds have a very depressing effect on crop prospects. The earlier sown grains have already shown considerably the great need of moisture, and it is not forthcoming, even the chances of a good crop are very meagre.

The recent high wind and dust storm played havoc with some of the buildings in our district. Mr. H. J. Winch's "machinery hall" went down under the blast, and Zip Elevator, an old, historic building, succumbed, while a new granary on the farm of Mr. John Long was scattered to the breeze.

On Tuesday evening, 17th inst., Hon. A. G. McKay, minister of health, and the Hon. C. E. Mitchell, our popular representative, addressed a very representative gathering in the schoolhouse here. Mr. McKay's address dealt principally with the proposed new municipal hospital scheme. He went into details and gave a very informal talk about the various workings of the scheme. A vote is to be taken on this proposition on the 30th instant.

We were informed on good authority, Mr. Editor, that you have crossed the Rubicon. We hasten to congratulate you on your courageous and commendable step, and to regret that your good example may be taken by many others. We have made several unsuccessful attempts ourselves to go "over the top," but the head-winds seemed to deter us.

With our eye continually on the goal we still believe in the old adage to "never stop your dash until the finish is reached, and you'll get there in the morning."

T. Sutherland is a firm believer in "collective bargaining," particularly around the outdoor grocery on Saturday evening. It takes two to make a bargain, there is something to be learned about this Saturday evening trip to town "where you don't have to stay out all night."

Minor Modifications Of Treaty Terms

New York.—The Associated Press issues the following:

In Paris the Council of Four continues to discuss points brought out by the German counter-proposals to the German peace treaty, especially as concerns territorial questions and reparations.

Experts on both these questions have been called before the council for conferences, and the belief apparently prevails in unofficial quarters in Paris that some modifications may be expected in the original terms of the treaty, particularly as regards the Saar basin and Silesia.

Discussion of the protest of Germany that being left without merchant ships, she is rendered impossible to resume her trade, and thereby unable to aid in paying the indemnities asked, also has been taken up by the council.

The expectation is that the council will head reports of the urgent necessity to render a quick decision on the matters in controversy owing to the situation in Germany.

One report has it that Herr Noske, the German minister of defence, has inspected the coast defences and ordered the garrisons to be ready for emergencies.

An appeal to the United States people by magistrates of 200 German municipalities, representing virtually half the population of Germany, has been signed. It demands a "peace of justice," under President Wilson's 14 points, and protests against the continuation of the blockade against Germany.

Paris.—There are anxious days throughout peace conference circles, with both the German and Austrian treaties in the balance, and every effort is being made to secure early and united action. Many private conferences are going on, including one between A. J. Balfour, British Foreign Secretary, and Col. House, of the American delegation, all seeking to clarify the situation and determine the course of action.

The prevailing view of those taking

part was hopeful of early and satisfactory results. They admitted that the conditions were difficult and the differences were rather sharply drawn, but insisted that there was nothing like an impasse, and that a threatening agreement. Indications were that certain general results are already beginning to take form. The German counter-proposals, as a whole, undoubtedly will be rejected, but a number of suggestions may be embodied in the allied treaty, not with any purpose of modifying or softening the document, but for the purpose of making it workable and achieving the supreme end of getting it signed and restoring peace.

Certain concrete results appear to be taking form, namely the fixing of reparations at a definite sum around one hundred million marks, instead of giving the commission indefinite powers to assess beyond that sum, reducing the period of occupation of the western frontier from fifteen to twenty years.

Readjustment of the Silesia terms at which Germany was greatly aroused, so that the population may be able to pay the reparations through a plebiscite. With respect to the League of Nations, the British and United States view first at Paris and then at the League of Nations, on the ground that it will bind her to keep peace. But France would not consider any association with Germany. So it is understood that M. Wilson has gradually come to M. Clemenceau's view of keeping Germany out of the League.

Besides making the amount of the reparations definite, the time for the first payment may be extended. The allied war reparations committee has been set up. The German complaint that they will be without merchant ships, it is suggested, will be met by the allies granting a limited number of ships so that the resumption of trade will permit the payment of reparations.

Willing to Accept Terms Being

Peace

New York.—The Associated Press issues the following: Like the German government, the Austrian government is said to be dissatisfied with the peace terms of the allied and associated powers, which are declared by one of the responsible newspapers of Vienna to be unacceptable. Unlike the German populace at large, however, the Austrian people apparently are apathetic, having expressed no easy terms, and are willing and even anxious to accept the conditions as laid down, and thus bring peace to the sorely stricken frontier. The Austrian government is said to be treating virtually an inland state of small territorial proportions.

After a casual glance over the peace terms, no German should have any doubt as to who won the battle of Jutland.—Toronto Telegram.

G.W.V. Would Probe Labor Unrest

Suspicion That Workers Are Being Systematically Robbed By Profiteers

Toronto.—An immediate effort to reach the solution of the labor unrest manifest throughout the country is demanded by the provincial executive of the Great War Veterans' association, which has been in session here. The executive calls for "drastic steps to deal with the labor and clothing situation by the present cabinet." The unanimous opinion of the executive was that the efforts to find employment for returned soldiers were fruitless because of the labor unrest. This unrest, the executive believes, is largely due to "the suspicion that the workers are being systematically robbed by profiteers."

The executive calls for a solution of the high cost of living. It asks for representation upon any committee which is chosen for investigating the question.

Dodging Responsibility For Starting War

Berlin.—(Associated Press).—Prof. Hans Delbrueck, General Count Max Montagu, and Prof. Dr. Heinrich Hammer experts at Versailles, have drawn up a long memorandum on the question of responsibility for the war, which will be presented as a reply to the entente commission's report on the subject.

The memorandum argues the necessity of submitting the question to an impartial commission (for investigation), and denies there was any secret plot between Berlin and Vienna to destroy Serbia.

It says that the German government could not accept the efforts of Sir Edward Grey, the British Secretary for Foreign Affairs in 1914, who offered to mediate, because it doubted his powers to control the Russian Emperor Nicholas' proposal to refer the dispute to the Hague also failed, it is said, because on the same day the German government made the mobilization of thirteen army corps was ordered. Russia's imperial policy, the memo argues, was not with Germany, but with Austria.

It says that Germany's war against France was one of defence and admits that a motive was to avenge the distrust of Great Britain.

U.S. Bomb Terrorism

Effect of Outrage Is to Prepare New and Severe Penalties for Convicted Perpetrators

Washington.—Investigation of the bomb explosion at eight o'clock, which was intended to kill public men, has convinced secret service chiefs here that the outrage has a considerable scope, and that they probably can be classed as an unsuccessful attempt on the part of a still unknown anarchist group to resume a series of terrorist attacks with the May-Day attempt to deliver a series of industrial machines through the mails out of New York.

Washington police devoted their efforts to re-assembling fragments of the man who was killed at the door of Attorney-General Palmer's house, while attempting to plant his cargo of explosives. Mr. Palmer himself dismissed the incident today as "utter failure to terrorize the country," and said the hand of the government.

Government experts on explosives after surveying the site of the explosion here and the partially demolished dwelling, came to the conclusion that two separate bombs exploded, probably by the man carrying them.

Both houses of congress members being the preparation of members being convicted perpetrators of such crimes.

Allies Stop General Strike

Germany Protest Against Rhineland

Coblenz.—A general strike throughout the occupied area was declared by the Germans as a protest against the occupying forces of the Rhineland at public at Wiesbaden. It was brief, however, being only four hours in duration, and workers returned to their jobs after being warned of the consequences by the allied military authorities. The principal strikers reported that the German workers at Treves and Coblenz.

When the news of the strike was known, word was sent the leaders that unless the Germans returned to work by 1 o'clock the leaders and all the other workers would be deported into sections of Germany man unoccupied by allied troops. The inter-allied railway commission reported that all the workers had returned to their jobs. Newspapers in Coblenz printed stories denying the birth of the German republic at Wiesbaden, and asserting that the report was an effort on the part of certain Germans to mislead the population of the Rhineland.

Alien Property

German Declare American Property Is Practically Inalienable

Paris.—The German government has declared that the American property in the United States and American property in Germany is receiving careful attention of experts, preparatory to the exchange of notes determining the situation.

German property in the United States, outside of ships, is estimated at \$450,000,000. American property in Germany is estimated at \$150,000,000. The Germans declare the American property is practically inalienable, and they are disposed to return it if the United States will adopt a similar course.

While recognizing the principle of inalienability of private property, the American view is that much of the German property in the United States is semi-governmental and therefore not protected as private property.

The merchant ships in American ports will undoubtedly be retained. The first plan was to offer their value against the American share of reparations. If the American government will purchase the ships, the purchase price being utilized by Germany to meet reparations.

Disallow Women in Synod

Anglicans Fear If Women Attended as Delegates It Would Drive Away Men

Kington, Ontario.—The Ontario Anglican synod, by a large vote, declared against a proposal to allow women to attend as delegates. The synod of delegates, it was pointed out, that if women delegates were allowed, many men would be inclined to abstain themselves from meetings. Appointing "lay" would count on the women to be present.

Bishop Ridwell took the view that while the church would benefit by having women delegates, it would stand to lose more than it would gain in absence of the men delegates, which would result from permitting women to take part in the synod. He pointed out that it was hard enough to get men to attend now; it would be impossible if women were admitted. Only seven voted for the women.

Hugs Must Take Hats

Off to British Officers

Churchill Informs British House That This Is War

London.—In the commons, in reply to Col. J. C. Wedgwood, who asked whether the Germans in occupied territories had to take off their hats and step off the sidewalk on meeting British officers, Rt. Hon. Winston Churchill, secretary for war, said, "I am glad to hear that when German soldiers meet British officers they are required to take off their hats. He has no reason to suppose that the practice would be discontinued after the signing of peace. This was one of the military regulations deemed suitable and appropriate to the period of occupation. The regulations were very much less severe than those which the Germans were accustomed to impose in occupied territories."

He believed that our regulations would bear comparison with those of the other great powers during the war. He was not prepared to deprive the army of its rights.

In reply to supplementary questions regarding American practice, Mr. Churchill said he was quite content to be guided by the officers responsible for the conduct of the war, which was not likely to be unduly severe. (Cheers.)

Asks Admission To League

Luxembourg Wish Their Country To Remain Autonomous

Luxembourg.—Secretary of State Reuters read in the chamber of deputies a letter from the government of Luxembourg regarding a Luxembourg delegation to come to Paris. He said the government was ready to leave at once for Paris to take part in the peace conference. He said that the people of Luxembourg wish their country to remain autonomous and to conclude an economic union with France, Belgium, or the Netherlands. He said that the government was also asked that Luxembourg be admitted to the League of Nations.

Italian Claims Being Adjusted

Paris.—Italy's Adriatic claims, which have been overruled and practically overlooked for several days because of the discussion over the proposed changes in the German treaty, are being adjusted.

Italian claims considered in private conferences between the Italian and French plenipotentiaries. The United States citizens expressed the belief that a compromise formula would be speedily found.

Lithuania Wants Investigation

Paris.—The Lithuanian authorities have demanded that the Peace Conference appoint a commission to investigate alleged pogroms by Poles, in parts of Lithuania occupied by Polish forces.

Value of Experience

If the average man could live his life over he would probably be a bigger fool than ever.

CHILDREN NEED HELP

Spanking doesn't cure bad behavior—the trouble is due to weakness of the child's character. My recent full home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. MRS. H. SUMNER, Box 42 Windsor, Ont.

Postal Employees Are Discharged

Ottawa, Ont.—That the government is determined not to renege on its promise to discharge postal employees who went out on a sympathetic strike in the West and declined to return to duty was stated in a telegram sent by Sir Robert Borden, one of Sir R. Sinclair, secretary of the central strike committee, Calgary, and the other to W. Hollingsworth, secretary of the Alberta Militia conference.

The prime minister's telegram was in reply to messages received by him. The message from Sir R. Sinclair to the premier conveyed a long resolution, passed by the Brotherhood of Dominion Express employees condemning the announcement by the government of the discharge of postal employees on strike should be considered dismissed.

The telegram concluded: "The central strike committee in passing that the Dominion government, after having been repeatedly asked to satisfy present conditions, has answered the appeal by taking up an antagonistic retaliatory attitude. The people's government must make it stand behind the people, not against them."

The telegram, from the Alberta Militia conference, covered a resolution passed by that body, expressing the view that the action of the government in discharging postal employees was a deliberate attempt to break the strike and to subvert the principles enunciated by the commission on labor legislation accepted by the peace conference, in the preparation of which Sir Robert Borden is said to have had a leading part. The telegram called upon the government to repeat its action and expressed the opinion that employees of railways, municipal, provincial and federal governments must be guaranteed the right of effective protest against wrong conditions.

Sir Robert Borden's reply to the secretary of the central strike committee was as follows:

Murderous Italians

Two Austrian Killed at Hamilton, and Two Wounded

Hamilton, Ont.—Two Austrians were fatally shot and two others fatally wounded at the Tuckett Arms, on the Beach road.

Eight Italians, who claimed they were liquor detectives, insisted on searching the premises. The police lined up the ten Austrians who occupied the house, and at the point of revolvers went through their pockets. The Austrians, who were armed, were shot into the line of Austrians, who were unarmed and who did not resist. Four of them fell, two mortally wounded and the others escaped.

German Chancellor's Declaration.—A member of the German delegation with the rank of councillor of legislation, who returned here recently from Berlin, made this declaration concerning the peace treaty: "We will sign, despite all, because we will be backed to pieces if we return to Berlin without signing."

Less Than 80,000 Overseas

London.—There are less than 80,000 Canadian men awaiting repatriation. Over 54,000 sailed during the month of May. The last units of the fourth division sailed on the Olympic on Friday.

Huns Are Too Some Plain Truths

Berne.—(French Wireless).—"The

German propaganda against the re-education of German prisoners of war by the allied governments does not take into consideration what the German prisoners in France, nor how deeply the systematic destruction in the destruction of the living frames of their own country. It is the only way to reach the heart of the German people, that they have themselves detained Russian prisoners, not only after the armistice with Russia, but also after the Brest-Litovsk peace.

"What impression is likely to be made on those who are to determine the fate of our prisoners by the fact that the German government continues to conceal the German prisoners in the hands of the Russian people? How could we feel toward France if our flourishing cities had been left in ruins and if we had seen a great many of our men leaving their beds been cut down and only the ordinary train left?"

"It is desirable that your attention should be called to facts which your committee has not taken into consideration. The government has always been prompt to give its best consideration to the demands of all public opinion, as doing so is no purpose to serve other than the public interest. It can only act under the mandate of the people's representatives in parliament and in the press, as trust and guardian of the public interests. The postal employees were bound by obligation and by oath faithfully to serve the people of Canada. They went out on strike in Winnipeg, not in respect of any grievance of their own, but in alleged sympathy with employees of private companies. They were given three days in which to return to their duty and they were distinctly informed that they must make a choice between directions received by them from the strike committee and the duty which they owe to the people of Canada. Some of them returned. Those who preferred to the strike were sent home deliberately and with full notice of the consequences which would inevitably follow.

"In other vituperative cities before any strike took place, most distinct and positive intention was given to postal employees, that abandonment of their public duty, obedience to the directives of another authority, and participation in a sympathetic strike would mean their permanent retirement from the public service. The postal employees, however, made a proposal that under such circumstances civil servants shall be permitted to view the situation and to locate the public service, to occasion intense public inconvenience and suffering, and to put aside all respect for public duty. The government cannot renege on its promise to maintain the public service, to maintain the public service, to maintain the public service. (Signed) "R. L. BORDEN."

Amir's Treachery

Military Position of British in Afghanistan Is Satisfactory

London.—Reuters' learns that the position in Afghanistan from the military standpoint is very satisfactory.

Possible developments from the Amir's latest move cannot be fore-shadowed until more definite information with regard to Afghan attitude is received. It is pointed out that the Amir's letter to the viceroy and his orders to his generals, both contain glaring inaccuracies.

The Amir's letter to the viceroy was obliged to take the defensive measures on any British Act, of course, quite untrue. The fact is the Afghan troops crossed the border at a dozen places and were mobilizing against our frontier as rapidly as possible when they received no provocation whatever.

Air Squadron for Russia

London.—Col. Collishaw's all-Canadian air squadron, which is to be sent to Russia under the command of Captains Kirkhead and Slater, of Canada; J. H. McDonald, Victoria; Morton and Briscoe, Toronto; Beith, of Ontario; Lindsay, Toronto; Green, Peterboro; Allen, Manitoba; Siddons, Quebec; and Richmond and Fall, Vancouver.

Stops Stomach Gas Prevents Fermentation Aids Digestion

If fermentation of food in the stomach can be prevented, you go a long way towards stopping the most common cause of all the gas. Doctors who have studied the effect of Dr. Hamilton's Pills say it would be difficult to find a remedy better adapted to stomach ailments than the use of Dr. Hamilton's Pills. The stomach matter that causes gas, heartburn, indigestion and headache. You will be pleasantly surprised at the smooth, easy way in which Hamilton's Pills move up the liver, kidneys and stomach.

It's really wonderful the improvement in appetite, in complexion, in general well-being that results directly from the use of Dr. Hamilton's Pills. They stop distension, flatulence and swelling of the stomach. They correct constipation, bad dreams and a bitter disposition.

Value of C.P.R. Land Grant

Misconceptions of the Value of Subsidies Given the C.P.R.

The Montreal Gazette, in discussing the value of the original land grant to the C.P.R., says in part:

In discussion of the railway problem in Canada the traditional misconception of the value of subsidies granted the Canadian Pacific Railway persists. At the recent meeting of Grand Trunk shareholders in London, the chairman, Mr. Smith, was asked how much all the subsidies to the company had amounted to. He replied that the value of the subsidies was \$350,000,000, and the Toronto Globe, which was present, was presenting half-truths, thus comments:

"Where did the Canadian Pacific get this princely figure of \$350,000,000, greater in extent than most of the European kingdoms, for the possession of which the great war was fought? From the people of Canada, by a free gift, to enable the company by providing cheap and adequate railway service to open up the West for settlement. And have the proceeds of this vast land grant been devoted to the intended purpose? Not a cent. It has all been squandered in the face. As a railway living on the fat of the land, the Canadian Pacific might be able to pay six per cent. a year upon the capital actually invested in it by its shareholders. As the most richly-dowered corporation on earth, by drawing upon its vast landed estate, it actually pays ten per cent."

Almost all of this vast landed estate came to the Canadian Pacific from the people of Canada, without any payment of a cent for the acquisition of the land or the taxation, during the long period in which the land lay ripening, acquiring value from the labor of the early settlers, who proved its worth."

The Canadian Pacific did not receive a single acre of land from the people of Canada. The land grant was otherwise a misnomer of words. The railway company acquired the lands as a free gift, and did not come into possession of the lands until the contract was fulfilled. The Government, representing the people, desired the construction of a transcontinental railway, partly in compliance with the terms upon which British Columbia entered confederation, partly for the settlement of the northwest, and partly to cement the union. The Government, therefore, entered into a bargain with a syndicate of gentlemen of wealth, patriotism and enterprise, to construct a railway from Montreal to Vancouver, agreeing to pay no more than the cost of the land and the work in cash, in land and in the partially-built sections of the line. Neither the money nor the land, nor the links which began nowhere and ended in the same place, was a free gift. It was payment for work to be performed, and had work not been performed no payment would have been made. It was no more a free gift than is the money a merchant pays a contractor for the erection of a warehouse. The Globe grate about the princely heritage of land possessed by the Canadian Pacific. No value is there. The Government. No value was created by the company, by large expenditure of money, by promoting settlement, by fulfilling the contract. Before the steel was laid across the prairies the land was not worth ten cents an acre, became

accessible for commercial purposes. Even in 1885, after the rails had been laid, the government did not place a higher price upon the land than \$1.50 per acre, which figure was deemed excessive by the Globe and its political friends.

One would infer from some of the criticisms that the whole Canadian Pacific system was promoted, paid for, and handed over to the company by the people of Canada, that the earnings of the company belong, at least in large measure, to the people, and that the great proportion of the enterprise should be censured rather than commended. What is the fact? The price the government paid for the railway is insignificant when contrasted with the amount invested by debenture and shareholders. The railway was considered by investors as a good, a proposition, even with its "princely heritage" of land, that the original share issue of \$65,000,000 represented only 46 per cent. of face value, and at one time these shares were offered on the stock exchange at 33, with few buyers.

It today the lands of the company have large value, that value has been given them by the company. When the lands were handed over to the government for full value received, and much more than full value, in fact, they were practically worthless, and when these lands are appraised as a subvention or purchase payment, they should be appraised at their value in 1885, when the contract for the building of the railway was made, not at the value given them in 1919 by the enterprise's expenditure and able management of the land and the railway.

Heart Palpitated Could Count Every Beat

When the heart begins to palpitate, it will beat fast for several seconds, then slow, then start to flutter, and then the patient will feel as if his heart were over his whole system, accompanied by a feeling of dizziness and a feeling of faintness.

When the heart gets into this condition, you become weak, worn and tired. These are the signs of a weak heart, and they are the signs of a weak heart. When the heart gets into this condition, you become weak, worn and tired. These are the signs of a weak heart, and they are the signs of a weak heart. When the heart gets into this condition, you become weak, worn and tired. These are the signs of a weak heart, and they are the signs of a weak heart.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all sufferers from any heart weakness or nerve derangements. When these pills are taken, the heart will be strengthened, and the nerves will be restored to their normal condition. This is the only way to cure heart and nerve troubles.

It Is Not All Gain

Neighbors No Longer Gossip at the Post Office and the Corner

A farmer friend was lamenting to the Orillia Herald the other day that the "socialism" of the present day was destroying the sociability of country life. Neighbors no longer meet and exchange greetings and gossip at the post office and the corner store. The mail is delivered and taken up daily at the farmer's own gate. If neighbors have business to transact they use the telephone instead of driving over, and so a few minutes suffices for what would formerly have taken an hour. More and more the tendency is for the young people to live in town by automobile in the evenings, instead of holding socials and dances at their own homes. It is coming to pass that families can live in adjoining farms, and the adults scarcely ever meet, unless they happen to go to the same church or belong to the Farmers' Club or Women's Institute. Much as the telephone, rural mail delivery and the auto are doing to relieve the isolation of country life, and to save time for the farmers, the change they are bringing about is not all gain—Simpson Reformer.

Many a man is the victim of crime, and the crime is committed simply because he is too lazy to avoid being victimized. Every time a circus comes to town we have a lot of firm evidence that the people are not so civilized as they are supposed to be. The man who has never tried to manage an opera company has missed a few of life's trials and tribulations.

The society of ladies is a school of politeness for men. It is as important to be sure you are wrong before backing out as it is to be sure you are right before going in. Has long been troubled with a little things consist in.

Passing the Blame Judge Wants Power To Deport Aliens

Ontario Chief Justice Says Present Machinery Utterly Inefficient

Toronto — In its capacity as Chief Justice Sir William Macdougall, the Grand Jury at the Assizes reported that the majority of cases had been called on to deal with had been of a serious nature, murder, attempted murder, and manslaughter. "We have been impressed by the fact," the presentment read, "that the foreign element contributed largely to these serious cases, and this grand jury endorses any legislation to limit the influx of foreigners to this country. It is the opinion of this grand jury that any steps taken towards the deportation of these undesirable men within the country would be greatly in the interests of the country at large."

Sir William remarked that the machinery for deportation was utterly inefficient, and added that he did not see why there should be any statutory limitations. Every court, he thought, should have the right to try and deport aliens. Some of the cases, he said, remained quiet for a time, but eventually their early environment reassured itself.

The cereal crops of the United States were worth over \$7,000,000,000 to the farmers who raised them in 1918.

Never Troubled With Headache

This Relief From Suffering Fully Appreciated by the Writer of This Letter—Tells How Cure Was Effected

South Fork, Sask., June 9. — Mrs. Lett, of this place, has a happy experience to relate. She has been troubled with headaches, but headache medicine has done her no good. The trouble came from torpid, sluggish action of the liver, kidneys and bowels. She was told by a doctor to take a laxative, but she was not to be taken by the use of Dr. Chase's Kidney-Liver Pills. She has now recovered, and Mrs. Lett (id that her health was greatly benefited.

Mrs. A. F. Lett, South Fork, Sask., writes: "I suffered from terrible headaches, so severe I could sometimes lie on my back for days. I had tried everything I could find, but nothing helped me until I used Dr. Chase's Kidney-Liver Pills. Since using these pills, I feel as if I had never suffered with headaches now, and feel much better generally."

This statement is endorsed by Mr. R. C. Gough, Postmaster at South Fork, Sask.

Mrs. F. L. Harris, Kestley, P.O., Sask., writes: "I was suffering from liver trouble and a heavy pain in the right shoulder-blade all the time, and was nearly blind. I had taken one 25c box of Dr. Chase's Kidney-Liver Pills. Since using these pills, I feel as if I had never suffered with headaches now, and feel much better generally."

Dr. Chase's Kidney-Liver Pills, one per dose, 25c a box at all druggists or Edman, Bates & Co., Limited, Toronto. The bottle is marked with the name of the doctor and the signature of A. W. Chase, M.D., on the label.

Wins 20,000 Francs

For being the first aviator to successfully land his plane on the roof of a building, J. Vedrines, noted French flier, was awarded a prize of 20,000 francs. Vedrines landed on the top of the Galerie Lafayette, Paris, in an aircraft 35 x 80 feet. Additional credit for this remarkable achievement is given him because the spread of his plane was only a little less than the width of the roof.

The first sperm whale found on the Californian coast in forty years was discovered in Monterey Bay by rock cod fishermen, who found the carcass of a large whale. The fishermen reported that the whale—which was 65 feet long—had been killed by a species of dolphin called a "killer." Its tongue had been eaten out. The whale was towed in and sold to a local fish company, and ten barrels of case oil were obtained from its head.

Bush Fires in Rainy Lake District

Between Virginia and International Falls Gangs Are Out

St. Paul, Minn.—Several bad fires were reported to State Forester W. H. Virginia. The heavy rain is necessary to put out the flames, although all are reported "under control." Rangers report say fires are making "acute situation."

Several square miles of valuable timber were burned northeast of Mantrap Lake. More than 100 men of Virginia and Rainy Lake Lumber Co. are fighting the fire between Virginia and International Falls, and other men are running between Vermilion and Rainy Lake. The most serious are on Vermilion River.

Some people seem to know everything except the fact that they don't know how much they don't know.

Corn Syrup

For Preserving Thousands of the best housewives have discovered that using half sugar and half Lily White Corn Syrup makes preserving more uniformly successful.

To start with, the consistency is bound to be just right from the very nature of the syrup; there is no danger of the preserves crystallizing; the syrup brings out the natural flavor of the fruit; the keeping quality is excellent; and the preserves do not have the cloying sweetness of all sugars.

For better preserves, use Lily White Corn Syrup.

Sold by Grocers everywhere—in one-pound tins.

CATELLI'S MILK READY CUT

Another Foolish Question

"A private was busy shaving himself in the open-bath beside the barracks, when his sergeant came along. "Do you know I have shaved outside?" asked the sergeant.

"Of course," answered the private. "Did you think I was hair-tied?"

Lacmelle

Jiggs: The Germans regarded fighting as a tonic.

Wit without wisdom soon becomes wearisome.

Doctors used a lance to bleed their patients in olden times. Other methods are now employed.

Cartoons Magazine.

WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winnipeg, Minn.—"I suffered for more than a year from nervousness, and was so weak that I could not get out of bed at night. I was so nervous that I could not sleep, and I was so weak that I could not get out of bed at night. I was so nervous that I could not sleep, and I was so weak that I could not get out of bed at night."

For forty years this has been overestimated. It is a fact that the compound, inflammation, irritation, irregularity, and nervousness of women, and is now considered the standard remedy for such ailments.

THE MAIL, BASSANO, ALBERTA

Alberta Industrial Congress

It is now officially announced that Sir Robert Borden will attend and address the industrial congress at Calgary on either August 10 or 11th. This fact, together with the announcement that such men as Henry Ford, Sir Edmund Walker, Joseph Oliver of the Oliver Plow Works, President of the Canadian Pacific, head of the Studebaker Corporation, the Willys-Cordell, the International Harvester, and other such men to speak, assures a gathering of remarkable proportions.

The Congress is to be provincial-wide in nature, including a tour of the province by special trains, arrangements for which have been made by the Canadian Pacific Railway, and commencing at Medicine Hat on August 11th. The tour includes Lethbridge, Calgary, Edmonton and a trip to the resorts in the Rockies.

Such men as Dr. McLaughlin of the University of Saskatchewan, Dr. Gillies of Queen's University, William Pearce of the C.P.R., National Resources, will address the Congress on the resources of the province of Alberta, while such men as Robert Dollar, head of the Dollar Steamship Company, of trans-Pacific routes and Sir Edmund Walker will discuss Pacific and Oriental commerce.

The main and educational session are to be held at Calgary, August 15 and 16. At Edmonton Premier Stewart and the Government will give a reception. While no effort is being made to attract the masses of the people, all those in any way interested in industrial development will be greatly welcomed to the educational sessions at Calgary. It is announced by the Program Committee, Congress headquarters have been opened in the Palliser Hotel, Calgary, from which thousands of invitations have been issued.

Tenders For School House

Scaled Tenders will be received by the Board of Trustees School District No. 2760, Bassano, at the Office of the Secretary-Clerk, up to noon July 15th, for the erection of a frame school building. Plans and Specifications may be obtained from the Secretary-Treasurer on payment of a deposit of \$5.00, which will be returned on receipt of a bond in order with plans and specifications. The lowest or any tender will not necessarily be accepted.

NEIL McLEOD,
Secretary-Treasurer,
Box 122 Bassano, Alta.
June 10th, 1919.

Automobile Races At Calgary Fair

Calgary, June 14th.—Baptism for the championship automobile race, which will be held at the Calgary Exhibition, July 4 and 5, has been granted by the International Motor Contest Association, which governs and sanctions practically all of the best street races in Canada and the United States. The I.M.C.A. has for the past three years sanctioned over fifty days of racing in Canada, and its record has not been limited to a single fatal accident.

Manager E. L. Richardson has been in communication with the famous dirt track and speedway drivers, and from present indications it appears that the entry list for the Calgary races will contain the names of the most noted of the profession. Four thousand dollars is the amount of prize money for the two days of racing, with one fourth of that sum, going to the winner of the long-distance race.

To Prevent Soil Drifting

To destroy weeds in the summer fallow on the prairie without having the soil in condition to drift readily a new style of cultivator has been devised. This implement, which has a place especially on the dry land farm, is designed to cut off weeds about three inches below the surface of the ground without breaking up the surface soil. Pamphlet No. 28 of the Dominion Experimental Farms, written by Mr. W. H. Fairbairn, Superintendent of the Experimental Station at Lethbridge and obtainable from the Publications Branch, Department of Agriculture at Ottawa, explains the construction by illustration and text, of this simple implement. The implement is eight feet wide and requires four horses for its operation. It may be constructed up to twelve or even sixteen feet when from six to eight horses are needed to draw it.

The Manitoba legislature has passed a bill putting out of business all Chinese restaurants in the province. This was done in order to protect hotel men. The members claimed these places were an "night" resorts where boys learned evil habits.

Asst. Postmaster Edwards, at Chetichan, has been arrested on a charge of stealing \$10.00 from the office till. The allegation is that he concealed the money up a chimney in the building, where it was found.

to use this line of ma-
chines that is known the
world over for its dura-
bility and light running
qualities.

ROY SMITH, Dealer, Bassano

HOUSEWIVES

THE PEOPLE'S MARKET LIMITED are
endeavouring to co-operate in every possible way with
their customers, but co-operation is something which must be
entered into by both parties to be successful. It is our desire
to supply our customers with what fresh fruit they will require
at the smallest possible cost and in a way to supply the best
possible quality. Berries of all kinds are quoted at such high
prices that by the time they are packed in crates and ex-
pressed through to us this year it will bring them too high for
canning purposes, but there is a certain amount of the crop
which is too ripe to stand shipping when packed, which the
packing houses are putting up in large tin cans which can be
shipped through by freight later on in the season and sold on
a gallon basis. This fruit can be reheated and put into
small scales and kept for future use much more economically
than they can be handled by the crate and shipped through
by express.

We can also get tree fruit by taking them just at the
time when the entire crop is in the right stage to be stripped
from the trees and have them come through in carload lots
and distributed much more economically than if they came
through by express during the season when they are simply
packing the first fruits to ripen on the trees and filling the
small express orders.

If each of our customers will be good enough to advise
us as soon as possible how many gallons of each kind of ber-
ries they will require for canning and also how many of the
regular size crates of the tree fruit, such as Peaches, Plums,
Apricots, and so forth, we will have each of our salesmen
supplied with a list on which they can note the names of the
customers and the requirement of each, so that we can tabu-
late them and come as near as possible to filling the require-
ments of all without buying more than can be used by the
community served by each one of our markets.

Kindly give this your earliest attention and make a list
of what you think your requirements will be and turn it in to
our meat-cutter on your first visit to the market, and greatly oblige.

THE PEOPLE'S MARKET LIMITED.

TWENTY-FIVE YEARS' MERIT

Having experienced no trouble obtaining Dunlop
Tires, you experience the feeling of a good "Buy" as
you motor and motor with them.

- That splendid appearance of
Dunlop Tires is no guess-work.

Proprietress - Mrs. J. N. Anderson

Local and Personal.

Mr. C. Carnegie was a business visitor to Calgary on Friday.

Tuesday next, is Dominion Day. All business places will be closed.

Mr. J. G. Maquin, of Montreal was a visitor in town on Friday.

Mr. and Mrs. Halbrook, of Rugby, N. D., are visiting Mr. and Mrs. T. H. Hunter.

Mrs. T. R. Best arrived from Boston on Saturday to join her husband in the Rosemary district.

Yelling on the Bassano District Hospital by-law will take place next Monday, June 30th.

Mr. R. C. Farnsworth, C.P.R. representative, of Boston, accompanied by a party of land-seekers, visited Bassano last Monday.

Mr. W. J. O'Neil, barrister, has opened an office in Bassano, for the practice of his profession. His advt. appears in this issue.

Mr. and Mrs. E. R. Heidt of Countess are the proud parents of a little daughter, who arrived at their home on June 4th.

Mr. Geo. Bynum left on Tuesday night for his old home in North Carolina, having sold his farm north of the Red Deer.

On Tuesday Mr. T. H. Hunter's race horse, "Bassano Boy," was shipped to Calgary, where he will compete in the running events at the Fair.

For the first four days of the week the fastest horses on the continent will vie with each other for the splendid prizes offered by the Calgary Exhibition. These races will be run on Monday, Tuesday, Wednesday, Dominion Day, Wednesday, Citizens' Day, and Thursday, Farmers' and Ranchers' Day.

Mr. A. C. MacKay, Organizer of the Municipal Hospital's Branch, Edmonton, has arrived in Town and is registered at the Hunter Hotel. He is here for the purpose of supervising and assisting in the campaign in support of the proposed hospital scheme which is to go to the vote on Monday next.

Last Friday evening the Gleichen and Bassano Juniors played a great game on the local diamond, resulting in a score of 8 to 11 in favor of the Gleichen boys. It was an exciting match all through and the playing compared well with the senior matches. Both Bassano and Gleichen may well be proud of the fine playing the little fellows are putting up.—Gleichen Call.

A full house greeted the Bassano minstrels on their appearance in town on Tuesday evening, June 17, and judged by the hearty applause all present were well pleased with the show. The proceeds, amounting to \$625, will be divided between the Gun piano fund and that of the Great War Veterans Association.

A special meeting of the Town Council was held in the Council Chambers on Monday afternoon to receive a report from the Town Overseer in connection with the smuckestack at the incinerator. All members of the Council with the exception of Councillors Maurer and Phylark were present. After considerable discussion it was decided to proceed with the erection of a 60-foot high brick smuckestack; the work to be performed by the town employees under the supervision of the Town Overseer, and the total cost not to exceed \$600.00.
